

GRADUATION PARTY DIY:

GRADUATION CAP BOTTLE TOPPERS

with COLLEGE LOGO

GRADUATION CAP TOP
3 inches by 3 inches

CAP BAND
4.75 inches by 1.25 inches

ASSEMBLY INSTRUCTIONS

Cut one cap top from logo paper and one from posterboard. Lay the logo paper logo-side up on the posterboard and secure with glue dots or double-sided tape.

Cut one cap band from logo paper (contrasting color if you have it.) Measure the bottle neck and adjust the band so it will slip over the neck of the bottle, not too snug. Secure the ends of the band with double-sided tape or glue dots.

Find the center of the cap and cut a hole with a small hole punch or sharp utensil.

Take a tassel and slide the attaching loop around the neck of a brad. Insert through the center hole on the top of the cap and spread the brad stems out to secure.

Flip over the cap top and on the bottom side, using glue dots or hot glue, secure the band to the cap top.
